8 Ways to Earn an Income

1. Direct Sales

As a LifesMiracle Distributor you may purchase products at wholesale and resell them at retail with approximately 40% profit. When products are purchased on your replicated website, 100% of the difference between wholesale and retail is added to your commission check. These retail purchases also generate CV (Commissionable Volume) that counts toward your other commissions.

Case Discounts: You may also purchase products at an approximate additional 40% (beyond the lowest Autoship price) discount when you purchase the nutritional products in 12-packs.

2. Preferred Customers

A customer who does not wish to become a Member by paying the \$39.95 member fee but still wants to order product on a monthly basis may become a Preferred Customer. They save approximately 20% off the retail price. They may cancel at any time. Like your retail customers, 100% of markup from the distributor price is added to your compensation check and the volume counts towards your other commissions.

3. Team Cycle Commissions

Your Team Cycle earnings are based on the CV of all the sales in your organization. The assigned CV of each item is approximately 75% of the Autoship price, and is based on the manufacturing costs, Direct Level Bonus payouts, and the margin for profit for the company and distributors.

This plan allows you to earn commissions on every order in your group to unlimited levels! Any volume that does not qualify for commissions in any given month rolls over to the next month's cycle so you do not lose the commissions on your sales!

Team Cycle Commissions are based on a two sided organization that pays to infinity. Your commissions are paid monthly when you're Active (25CV/month on autoship) AND Bonus Qualified (with two Active, personally enrolled distributors.) And we give you time to get started. If you're Active with your monthly order but NOT Bonus Qualified, **we let your bonus volume accumulate for up to six months until you meet the enrollee requirement.** This allows you to get your business up and running while you're learning the business!

Here's how the Team Cycling works-- Every order placed on both sides of your entire organization accrues CV Points. And every 330CV on one side and 660CV on the other pays out a \$50 cycle commission, and then the 330CV and 660CV is subtracted out.

With Team Cycling it's possible to earn commissions from the efforts of your upline because the most they can have direct to them is two, and those they enroll beyond that may be placed under you, and under those under you— where you and your team can earn commissions on their orders.

You'll also earn on your own volume-- All CV over \$25 per month goes into the side with the lowest volume!

Important: *Because twice as much volume is being taken from the most active side, you can cycle twice as often for the same amount of volume in the case where one side grows faster than the other! This minimizes the situation where one side becoming overly large because of powerful recruiters in your downline or upline. You can set up your structure in your back office so your new enrollees automatically position into your weakest leg so you can be paid on all the volume!*

The following Direct Level Bonuses (4-8) are paid in addition to the Bonuses above. Anyone you personally enroll is your 1st generation, those enrolled by them your 2nd, and those enrolled by them your 3rd generation. It doesn't matter how many there are or where they fall in the Team Cycle structure even if they're hundreds or thousands of levels deep— if you enrolled them they're 1st generation to you!
