8 Ways to Earn an Income

1. Retail Profits

As a LifesMiracle Distributor you may purchase products at the wholesale cost and resell them at the retail price which is approximately 40% higher. When you sell product on your Replicated Website 100% of the difference between wholesale and retail will be added to your commission check. Also, those purchases generate CV that counts toward your other commissions.

2. Preferred Customers

A customer who does not wish to become a Distributor by paying the annual \$9.95 member fee but still wants to order products on a monthly basis may become a Preferred Customer and pay approximately 20% more than the Distributor price. They may cancel at any time. 100% of markup from the Distributor price is added to your compensation check. Like the retail profits, the volume from your Preferred Customers counts as your CV towards your other commissions as well.

3. Team Cycle Commissions

Your earnings are based on the CV (Commissionable Volume) of all the sales in your organization. The assigned CV of each item is approximately 75% of the Autoship price, and is based on the manufacturing costs, and the margin for profit for the company and distributors.

Team Cycle Commissions are based on a Binary structure that pays an Active Qualified Distributor a 15% commission of the CV on their pay leg (weak leg). These commissions are paid monthly when you're Active (25CV/month on autoship) and Bonus Qualified (2 Active, personally enrolled distributors.) If you're Active with your \$25CV monthly order but NOT Bonus Qualified, **we let your bonus volume accumulate for up to six months until you meet the enrollee requirement.** You also earn commissions on your own volume-- All CV over \$25 per month goes into your weakest leg.

Cycling-- Every order placed in your entire organization accrues CV Points. And every 330CV on one side and 660CV on the other pays out a \$50 cycle commission and then the 330 & 660CV is subtracted out.

Important: *Because twice as much volume is being taken from the most active leg you can cycle twice as often for the same amount of volume when one leg grows faster than the other! This minimizes the situation where one leg becoming overly large because of powerful recruiter in your downline or upline.*

The reason you earn CV from distributors in your upline is because the most distributors anyone can have directly to them is two and all other distributors your sponsor enrolls beyond that are placed under you, and under those under you— where you will earn full commissions on their volume. Because the plan does not cut you off at any point you can earn commissions on every order in your group to unlimited levels!

The following Unilevel bonuses (4-8) are paid in addition to those paid from the binary side of the pay plan above. Everyone you personally enroll will be regarded as your 1st generation, those enrolled by them your 2nd generation, and those enrolled by them your 3rd generation. It doesn't matter how many there are or where they fall in the binary side of the pay plan even if they're hundreds or thousands of levels deep! If you enroll them, they're 1st generation to you.

4. Fast Cash Bonuses
